Task Management using Microsoft Copilot

Build Task Management Tools

Create tailored task management tools with Power Apps, designed to streamline team workflows and optimize team collaboration

Integrate the Applications

Seamlessly integrate Microsoft To Do with Outlook, calendar events, and team conversations to automatically generate task lists and keep your team on track

Automate Reminders

Copilot automate task reminders and send timely updates to ensure deadlines are met and everyone stays informed

Track Progress of Tasks

Monitor and track the progress of tasks in real-time, ensuring visibility and accountability for each team member.

From task creation to progress tracking, automate and streamline every step.
